Description

Grave at Cape Adare of Norwegian biologist Nicolai Hanson, a member of the British Antarctic (Southern Cross) Expedition, 1898-1900, led by Carsten E. Borchgrevink. A large boulder marks the head of the grave with the grave itself outlined in white quartz stones. A cross and plaque are attached to the boulder.

Risk Assessment Details

- | | | | | | |
|---|---|------------|---|---|------------|
| 1 | Is the HSM comprised of durable materials? | No | 5 | Is the HSM located 3m or less above sea level? | No |
| 2 | Is the HSM located in the Western Antarctic (i.e., west of the Transantarctic Mountains)? | Yes | 6 | Is the HSM located within 100m of shoreline? | No |
| 3 | Is the HSM located on the Antarctic Peninsula, South Orkney Islands, or South Shetland Islands? | No | 7 | Does the HSM site have steep slopes (i.e., greater than 20%)? | No |
| 4 | Is the HSM located at a coastal site? | No | 8 | Is the HSM situated on permafrost soils? | Yes |
